AND/OR rubber cork

As the name states, AND/OR 2.0 is uniquely suitable for floor “and/or” wall applications. From corporate, education and museums to upscale fitness, AND/OR 2.0 is an excellent flooring “and/or” wallcovering choice for many commercial sectors. In flooring installations, AND/OR 2.0 offers enhanced slip resistance, comfort underfoot, exceptional durability and sound absorbing qualities. In vertical installations the AND/OR 2.0 standard 3.2mm roll format can be used as a wallcovering, a tackable surface, for wall protection or to cover structures/displays including those that will be climbed and crawled on. AND/OR 2.0 requires 2 coats of a site-applied finish after installation for all flooring installations and vertical installations below chair rail height. Once the finish is applied, AND/OR 2.0 can be easily maintained; refer to AND/OR 2.0 Care & Maintenance documents.

AND/OR 2.0 Standard Formats:

3.2mm 4' x 25' Rolls

8.2mm (double layer installation, 3.2mm rolls over 5mm rolls)

12.2mm (double layer installation, 3.2mm rolls over 9mm rolls)

AND/OR 2.0 Nonstandard Formats:

8mm: 4' x 25' Rolls (incremental minimums will apply)

3.2mm: 24" x 24" Square edge tiles (incremental lot minimums will apply)*

**Tile lots yield 232 sf; installations over 232 sf will consist of multiple lots and shall be designed accordingly.*
