**RE: Capri Mediterra Red List Chemicals**

To Whom It May Concern,

As Technical Director, I am writing to confirm that Capri Mediterra Cork Tiles and Planks are not manufactured with any of the following chemicals, per the Living Building Challenge Red List, version 3.1:

- Alkylphenols
- Arsenic
- Asbestos
- Bisphenol A (BPA)
- Cadmium
- Chlorinated Polyethylene
- Chlorosulfonated Polyethylene
- Chlorobenzenes
- Chlorofluorocarbons (CFCs)
- Chloroprene (Neoprene)
- Chromium VI
- Chlorinated Polyvinyl Chloride (CPVC)
- Creosote
- Formaldehyde (added)
- Halogenated Flame Retardants (HFRs)
- Hydrochlorofluorocarbons (HCFCs)
- Lead (added)
- Mercury
- Pentachlorophenol
- Polychlorinated Biphenyls (PCBs)
- Perfluorinated Compounds (PFCs)
- Phthalates
- Polyvinyl Chloride (PVC)
- Polyvinylidene Chloride (PVDC)
- Short Chain Chlorinated Paraffins
- Volatile Organic Compounds (VOCs) in coatings, adhesives and/or sealants (within limits)

For further information regarding the sustainability of Mediterra, please visit the Sustainability page at [capricollections.com](http://capricollections.com).

Sincerely,

**Graham Capobianco, Technical Director**
