Mediterra 2.0 Restaurant

Hospitality spaces are meant to be felt, and cork flooring creates an immediate sense of comfort the moment guests arrive. From high-traffic public areas to guest rooms, cork reduces noise within a room, from room to room and between floors while also improving underfoot comfort to create a relaxed, welcoming atmosphere.

Because cork has a closed-cell structure, it does not easily absorb liquid — in fact, cork naturally floats. Spills can be wiped up quickly, making it well suited for areas where beverages are served. Additionally, Capri's 5 layer factory finish provides the cork long-term surface protection. In the fast-paced hospitality sector, cork flooring can be maintained efficiently, supporting both aesthetics and operational demands.

Mediterra 2.0 Restaurant

KEY BENEFITS OF MEDITERRA 2.0 AND ECO-CLICKS CORK:

Cork's **closed cell structure** enables it to compress and recover quickly and this closed cell structure is what makes cork flooring durable and able to be installed in high traffic areas.

Since cork is **50% air by volume**, it is an excellent sound insulator. Meditterra 2.0 ASTM C423 test results have a NRC of 0.05 and Eco-Clicks ASTM E2179 test results have a Delta IIC rating of 24.

Mediterra 2.0 and Eco-Clicks comes **pre-finished with 5 coats of Capri's proprietary TLP+ commercial grade urethane**. No need for site applied finish.

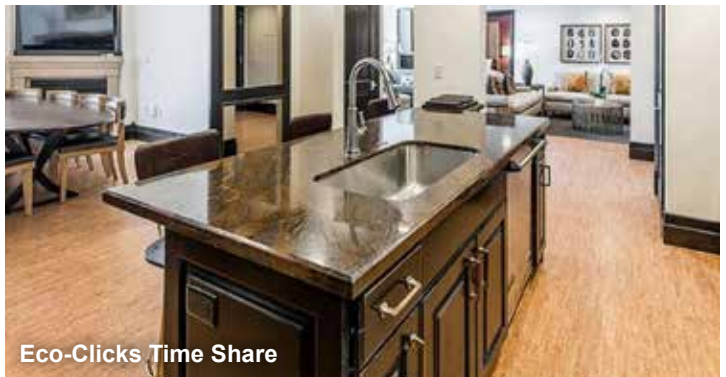

Cork is **naturally antimicrobial & anti-fungal**.

Eco-Clicks Time Share

MEDITERRA 2.0 *glue-down tile*

ADDITIONAL BENEFITS:

- Cork tile qualifies for purchase under the Buy American Act
- Installing Meditterra 2.0 with Gold Series WC 1000 adhesive allows for immediate use after installation

ECO-CLICKS *floating cork*

ADDITIONAL BENEFITS:

- Since Eco-Clicks is a glueless floor, it allows for immediate use after installation
- Ideal for renovations, guest room upgrades, or projects with challenging substrates

As history has proven, well maintained cork floors can last decades

Why cork?

Naturally durable, insulating, antimicrobial and rapidly renewable — cork is a smart, sustainable choice for modern interiors.
