

Cork flooring in Libraries

WHERE *sustainability* MEETS *style*

Capri Collections offers a diverse range of high-quality cork flooring solutions designed for the commercial sector. Capri's Mediterra 2.0 glue-down cork and Eco-Clicks floating cork are PVC FREE, Declare Label Red List Free, GREENGUARD Gold certified and listed on mindful MATERIALS — ensuring sustainability with style. With the versatility of Mediterra 2.0 and Eco-Clicks cork flooring, designers can create library environments that prioritize comfort, acoustics, durability, and long-term performance in multiple spaces.

CORK IS SUITABLE FOR: reading rooms, quiet study areas, media centers, collaborative zones, librarian offices, youth and teen spaces, and every corner of the library where comfort, acoustics, and sustainability matter.

Since the early 20th century, libraries have relied on cork flooring for its acoustic control, resilience, and comfort underfoot. As contemporary libraries transition into multifunctional environments—balancing quiet zones with collaborative and community spaces—flooring performance has become increasingly important. Cork offers a unique combination of sound absorption, impact resistance, and long-term durability, making it an optimal solution for large open reading areas, focused study rooms, and high-traffic circulation paths. Its natural properties help maintain the controlled acoustic environment essential to library function while supporting modern design and sustainability goals.

Eco-Clicks • Cabot Library

KEY BENEFITS OF MEDITERRA 2.0 AND ECO-CLICKS CORK:

Cork's **closed cell structure** enables it to compress and recover quickly and this closed cell structure is what makes cork flooring durable and able to be installed in high traffic areas.

Since cork is **50% air by volume**, it is an excellent sound insulator. Meditterra 2.0 ASTM C423 test results have a NRC of 0.05 and Eco-Clicks ASTM E2179 test results have a Delta IIC rating of 24.

Meditterra 2.0 and Eco-Clicks comes **pre-finished with 5 coats of Capri's proprietary TLP+ commercial grade urethane**. No need for site applied finish.

Cork is **naturally antimicrobial & anti-fungal**.

Meditterra 2.0 • West Jordan Library Utah

Eco-Clicks • Capitol Hill Day School

MEDITERRA 2.0 *glue-down tile*

ADDITIONAL BENEFITS:

- Cork tile qualifies for purchase under the Buy American Act
- Installing Meditterra 2.0 with Gold Series WC 1000 adhesive allows for immediate use after installation

ECO-CLICKS *floating cork*

ADDITIONAL BENEFITS:

- Since Eco-Clicks is a glueless* floor, it allows for immediate use after installation

*Due to substrate issues, Capitol Hill Day School needed to use a glueless flooring solution.

As history has proven, well maintained cork floors can last decades

Why cork?

Naturally durable, insulating, antimicrobial and rapidly renewable — cork is a smart, sustainable choice for modern interiors.
