

Cork flooring in Worship and Concert Spaces

WHERE *sustainability* MEETS *style*

Capri Collections offers a diverse range of high-quality cork flooring solutions designed for the commercial sector. Capri's Meditterra 2.0 glue-down cork and Eco-Clicks floating cork are PVC FREE, Declare Label Red List Free, GREENGUARD Gold certified and listed on mindful MATERIALS — ensuring sustainability with style. With the versatility of Meditterra 2.0 and Eco-Clicks cork flooring, designers can create worship and concert spaces that prioritize acoustic control, comfort, durability, and long-term performance.

CORK IS SUITABLE FOR: sanctuaries, concert halls, fellowship areas, classrooms, rehearsal spaces, aisles, offices, corridors and more.

Cork flooring offers a strong set of benefits for church worship spaces and concert halls, where acoustics, comfort, and durability all matter. While it does not replace dedicated acoustic engineering, cork naturally absorbs sound, helping reduce footfall noise, echoes, and unwanted reverberation. Its cushioned, resilient surface supports long periods of standing, walking, or kneeling, and its natural slip resistance enhances safety in high-traffic areas. Because cork is also a natural thermal insulator, it contributes to creating a warm, welcoming atmosphere. Together all these qualities make cork a good flooring choice for spaces that must balance beauty, performance, and comfort.

Mediterra 2.0

KEY BENEFITS OF MEDITERRA 2.0 AND ECO-CLICKS CORK:

Cork's **closed cell structure** enables it to compress and recover quickly and this closed cell structure is what makes cork flooring durable and able to be installed in high traffic areas.

Since cork is **50% air by volume**, it is an excellent sound insulator. Meditterra 2.0 ASTM C423 test results have a NRC of 0.05 and Eco-Clicks ASTM E2179 test results have a Delta IIC rating of 24.

Mediterra 2.0 and Eco-Clicks comes **pre-finished with 5 coats of Capri's proprietary TLP+ commercial grade urethane**. No need for site applied finish.

Cork is **naturally antimicrobial & anti-fungal**.

Ask us about **FSC® certified cork**.

Mediterra 2.0

MEDITERRA 2.0 *glue-down tile*

ADDITIONAL BENEFITS:

- Cork tile qualifies for purchase under the Buy American Act
- Installing Meditterra 2.0 with Gold Series WC 1000 adhesive allows for immediate use after installation

Eco-Clicks

ECO-CLICKS *floating cork*

ADDITIONAL BENEFITS:

- Since Eco-Clicks is a glueless floor, it allows for immediate use after installation
- Ideal for renovations or areas with challenging substrates

As history has proven, well maintained cork floors can last decades

Why cork?

Naturally durable, insulating, antimicrobial and rapidly renewable — cork is a smart, sustainable choice for modern interiors.
