Many Eco-Clicks colors/patterns are available on Capri's Meditterra 2.0 glue-down tile format. Please inquire. All Eco-Clicks colors/patterns are random and not intended to match or line up. Like all-natural wood, cork has shade variations; attention to blending shades when installing is necessary. UV rays can fade cork. Proper window UV films shall be used to diminish this effect.

Cork is a naturally versatile, durable, sound reducing, insulating, antimicrobial & anti-fungal rapidly renewable raw material.
