

## Sound View Greenport

An iconic 1950s motel was transformed into the Sound View Greenport Hotel in Greenport, NY. The 45 room hotel, renovated by Studio Tack, has 14,000 sf of Capri's Seaside installed in the guest rooms. Seaside is part of Capri's Re-Tire Medley recycled rubber collection. All Medley colors "mix it up" by adding natural cork content to recycled rubber granules. The cork adds subtle visual and textural interest to recycled rubber.

Seaside, created with beachy colors and cork, is perfect in the beachside guest rooms that overlook the Sound.

Medley, exclusive to Capri, is offered in 16 standard colors in thicknesses from 3.2 mm to 12 mm in rolls, square edge tiles and interlocking tiles.
