

TLP+ *cork floor finish*

Mediterra 2.0 & Eco-Clicks Cork come pre-finished with 5 coats of Capri's proprietary TLP+ finish. Designed specifically for cork flooring, TLP+ is a multi-layer finish with no need for additional coats after installation.

TLP+ *Attributes Include:*

True hybrid finish • Chemical & abrasion resistance • Elasticity
Finish yellowing resistance • Low sheen that enhances natural cork
Ease of maintenance • Low VOC content & emissions
Free from toxic solvents, formaldehyde, phthalates, heavy metals

Meditera 2.0 Pick up Strips Light

TLP+ cork floor finish

Suitable for both commercial and residential installations, TLP+ finish on Mediterra 2.0 and Eco-Clicks Cork provides years of protection. Regular maintenance* of the cork is required; Care and Maintenance Instructions are available in the Document Library on the Capri Collections website.

Over time, based on both foot traffic wear and maintenance, cork flooring will need to have the surface recoated with site applied finish. Refer to the Care and Maintenance Instructions for recommended procedures and finish products. For more detailed information about TLP+ refer to our TLP+ Technical Bulletin: <https://www.capricollections.com/document-library/>

As history has proven, well maintained cork floors can last decades.

**If maintenance includes use of an auto scrubber, 1 coat (minimum) of site applied finish after installation is required to prevent liquid from penetrating the seams.*
