Eco-Clicks *floating cork*

Zigzag & Walkway Dark

Eco-Clicks *Yes, these are cork!*

Eco-Clicks, with unique cork patterns and colors, is a natural, sustainable, PVC FREE flooring for areas where glueless floors are the better option. Often used in corporate, higher education, hospitality and retail installations, Eco-Clicks has a 1.5 mm attached acoustical cork backing and comes prefinished with 5 coats of Capri's proprietary TLP+ commercial-grade urethane finish and is manufactured using up to 45% pre consumer recycled content. Created utilizing our advanced digital technology, Eco-Clicks patterns Walkway Light, Walkway Dark, Zigzag and Crisscross are printed to resemble hard surface stone or unique wood visuals. Since these patterns are printed on cork, they offer the sustainability, comfort and quiet that only cork can provide.
